

## MAGRO BENCH SEATS

Magro benches provide elegant, comfortable seating that is easily moved and compact enough for settings where space is at a premium.

They can be ordered in two lengths, ample for two or three people, with or without arms.

Made from PEFC thermo treated Ash all the timber products require no finish, are low maintenance, and have a lifespan greater than Oak.

Complimentary tables come at low and dining heights, with new products being added to the Magro range all the time.

Long Magro: 1.8m long x 0.55m deep x 0.81m high  
Small Magro: 1.35m long x 0.55m deep X 0.81m high  
Seat Height: 0.45m

At Heseltine Design we have been producing exterior and interior work for over thirty years for public, corporate and private clients. With an emphasis on innovative design using premium materials our products can be tailored to each specific project or new designs can be developed.
